

Guidelines of

c-m-p

customer meets perfection

- **We are the primary producer of prepreg / semi-manufactured products in the field of carbon and glass fibre composite materials and want to keep that title!**
- **Our customers decide our future, so their satisfaction comes first for us!**
- **Ensuring the safety and attractiveness of our workplaces for our engaged and responsible employees is our most valuable asset!**
- **Our employees are the pillars of our corporate success, as the value of our organisation is based on competence, know-how and experience!**
- **We maintain respectful, open communication, even in the case of identified errors and weaknesses!**
- **The protection of resources and the environment is a high priority for our company!**
- **We work with the centrally used ERP-system, NAVISION and through so doing, maintain very high levels of transparency and flexibility!**

Our products and services are geared towards the accomplishment of these guidelines and are subject to regular monitoring, with the objective of continually achieving further improvements.
